

AUDIT OF THIS THIRD-PARTY SUBMISSION UNDER 37 CFR § 1.290*U.S. Application No. 19/318,450 (Publication No. US 2026/0070232 A1)*

READY, SUBJECT TO THE DECISIONS BELOW. Every paper the rule requires is here. 3 items need a decision or a signature from you before filing.

Every requirement of 37 CFR 1.290 is listed below with the paragraph it comes from and whether the papers in this packet satisfy it. A submission that misses one of these may not be entered or considered: 1.290(a).

Rule	Requirement	Status	What it means here
1.290(b)	The submission window	met	Open. File before 2026-09-12. That was 19 days from the date of this audit, 2026-08-24; count from today, not from the number in this line. The window may extend if the first rejection is mailed after that date, but it cannot be relied on.
1.290(c)	Made in writing	met	Every paper in this packet is a PDF.
1.290(d)(1)	A document list	met	10 items listed.
1.290(d)(2)	A concise description of the asserted relevance of each item	met	Every listed item has one.
1.290(d)(3)	A legible copy of each non-U.S. item	met	Attached for all 4 items that need one.
1.290(d)(3)	Each copy is the whole document, not part of one	you decide	Doc 2 (WO 2010135788 A1): 19 pages with no readable text, so this is a drawings bundle or an unsearchable scan rather than the specification. Check it opens as the whole document before filing. Doc 8 (GB 874600 A): 6 pages with no readable text, so this is a drawings bundle or an unsearchable scan rather than the specification. Check it opens as the whole document before filing. Doc 10 (JP S6165742 A): 1 pages with no readable text, so this is a drawings bundle or an unsearchable scan rather than the specification. Check it opens as the whole document before filing.
1.290(d)(4)	An English translation of any non-English item	met	Attached for all 2 non-English items. A machine translation is acceptable and each is labelled as one.
1.290(d)(4)	The translation is legible as furnished	read this	The machine translation carries characters the source scan could not resolve, printed as they came: Doc 10 (JP S6165742 A): 1. They are in the translation, not in this rendering, and the paper already states that the original publication governs. Read the passage before filing and consider whether a human translation is worth the cost for that document.
1.290(d)(5)	The two statements by the submitting party	you decide	Both are on the document list paper and both are UNSIGNED . Set a signature in your profile, or sign them in Patent Center. They are made by the party, not by this tool.

Rule	Requirement	Status	What it means here
1.290(e)	How each item must be identified	met	Every item carries the fields its own type requires, U.S. patents and publications are in their own section, and the application number is on every page.
1.290(f)	The fee, or the exemption	you decide	10 items means 1 unit of the 1.17(o) fee, charged per ten items or fraction thereof: \$78 at the small-entity rate of \$78 a unit (schedule of 19 January 2025). A third party cannot use the micro-entity discount. Pay it in Patent Center and check the rate has not moved.
MPEP 1134.01	The description states disclosure, it does not argue unpatentability	met	No argumentative or conclusory language found.
beyond the rule	Every quotation appears verbatim in the document it is attributed to	met	Every quotation in these papers was re-checked against the stored text of the document it is attributed to. 4 rows cited a passage that could not be found and were removed rather than filed as a bare assertion. Nothing here cites an unverified passage.
beyond the rule	Every listed item is prior art to this application on the dates	met	Every item qualifies on its dates.
1.290(i)	A certificate of mailing does not help	read this	1.8 does not apply to this deadline. The submission has to be RECEIVED by the Office inside the window, so file electronically and do not rely on a mailing date.
